EMERGENCY NO.: 082 446 8946

WARNINGS:

Do not spray within the following number of days of harvesting:

- Bananas, guavas, peaches, plums, apricots and fruit within 10 days.
- Granadillas, avocado, paw-paw, citrus, beans, cruciferae, onions within 7 days.
- Cucurbits, mushrooms and tomatoes within 1 day.

Handle AVI GARD MERCAPTOTHION with care. Poisonous by contact, swallowing and inhalation. Keep out of reach of children and pets. Store under lock and key, away from food and feedstuffs. Toxic to bees, fish and wildlife.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and affect thereof may be affected by factors such as abnormal soil, climatic and storage conditions; compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal or for the lack of performance of the remedy concerned due to the failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS:

Do not breathe in fumes of spray mist. Wash with soap and water after skin contact. Do not eat, drink or smoke whilst applying. Prevent drift onto other edible crops and fish ponds. Prevent contamination of foodstuffs, food utensils and drinking water. Destroy empty container and do not re-use for any other purpose.
