

TNT

Total Nutrient Transfusion

4:1:2(14)

BALANCED BIOLOGICAL BASE NUTRIENT

**Bud Juice's TNT
(Total Nutrient Transfusion)
is a specifically formulated
smart plant nute
designed to
give your grow
what it needs
when it's needed most.**

Available in:
500ml, 1L, 5L, 20L

Designed to be used primarily as a vegetative plant nute it is also combined with BOOM BLOOM during your flowering stage.

With TNT you now have an advantage of being able to safely apply only one biological smart plant nute during your vegetative stage, confidently knowing that we have combined all the essential elements required for healthy, vigorous growth.

Designed for use on all indoor & outdoor crops, TNT is formulated using our proprietary blend of organic acid carriers combing all Macro & Micro nutrients, protein, carbohydrates, essential sugars, amino acids & carbon to stimulate not only explosive growth but more importantly to stimulate all the beneficial microbial organisms in your specific growing medium.

- all macro & micro nutes
- amino acids
- humic & fulvic acids
- sugars & carbon
