SYMBIONICS

Symbionics is Bud Juice's answer to a biologically friendly form of molasses, an instant food source for your substrate's microbial populations. Designed specifically to promote the cycle of nutrient uptake in all crops, Symbionics not only contains beneficial sugars but potassium & essential amino acids as well. Working in symbiosis with your soil microbial populations, Symbionics will take your grow from seed to weed.

Used during both vegetative & flowering stages, Symbionics is a must for all soil & coir substrates. Essential for all indoor & outdoor grown crops.

Intended for use on grown crops.
 Not for human consumption.
 Use during bloom cycle of your grow as a

RECOMMENDED FEEDING SCHEDULE

Dilute by mixing with water to achieve the desired concentration measured as *ml / 1l water*
 Use within 24 hours after mixing.
 Discard any diluted Symbionics after 24 hours.

- **SEEDLING**
1 ml/l Every 2 weeks
- **VEG STAGE**
2-4 ml/l Once a week
- **BLOOM STAGE**
4-2 ml/l Once a week
- **FLUSH**
Water only pH: 5.8 - 6.2
7 - 14 days before harvest
